## EXPERIENCE

### [Self-employed /Freelance](#)

2022 - Present - Stockholm, Sweden

Working as a freelance Industrial and UX designer based in Stockholm while also pursuing a career as an independent artist, specializing in printmaking and papercutting.

### [Advanced UX Designer](#)

Honeywell | 2021 - 2022 - Bangalore, India

As a designer in the Honeywell User Experience team (HUE), within the Airports division, I worked on the Visual Docking & Guidance Systems, runway lights, and other systems for airports, using human-centered processes.

### [Senior Industrial Designer](#)

Titan Company Ltd. | 2015 - 2021 - Bangalore, India

Our team designed watches for specific customer segments. In addition to honing my product design skills, this job helped me develop the acumen to manage multiple stakeholders through the product journey. From creating design stories based on brand research and trend analysis, to supporting the market launch, my role as a designer took many forms. I developed an acute knowledge of the manufacturing processes and colour-material-finish (CMF) involved in watch-making.

### [Industrial Design Intern](#)

Whirlpool | 2013 - 2013 - Gurugram, India

As an intern in the product design department, I worked on creating distinct and innovative refrigerator door designs based on specific themes and inspiring stories.

## EDUCATION

Bachelor in Industrial Design

National Institute of Design | 2010 - 2015, Ahmedabad, India

UX/UI Up-Skill

Hyper Island | 2024 - 2025, Stockholm, Sweden
